

Certification of Completion

The Interconnection Customer should complete the Distributed Energy Resource Certification of Completion for a proposed DER interconnection in the Simplified Process Track. As a condition of interconnection, a completed copy of this form must be returned to the Utility.

Distributed Energy Resource Information					
Interconnection Customer:					
DER Project Address:					
City:		State:	Zip Code:		
Application ID:	Meter Number:				
Is the DER system owner-installed?	□ Yes □ No (If no please completed Installer Information)				

Installer Information	
Contact Name:	
Name of Business:	
Email:	Phone:
Electrician Name	License #

Electrical Permitting Authority				
The DER has been installed and inspected in compliance with the local electrical permitting authority as the				
additionally attached document.		ed document. 🛛 Yes 🗆 No		
If inverter based DER, the inverters have been programmed to have:				
□ Yes	□ No	Operating Mode set to Constant Power Factor with power factor set at 0.98 absorbing		
□ Yes	🗆 No	Frequency Abnormal Response set to IEEE 1547-203 ranges		
□ Yes	□ No	No Voltage Abnormal Response set to IEEE 1547-203 ranges		
□ Yes	🗆 No	Dynamic Voltage Support and Volt-Watt is not active		
Please print clearly or type and return completed along with any additional documentation				
□ Yes □ Yes	□ No □ No	Voltage Abnormal Response set to IEEE 1547-203 ranges Dynamic Voltage Support and Volt-Watt is not active
